Overview

Does Cyprus have a battery energy storage system?

Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country. Cyprus Energy Regulatory Authority (CERA) announced the approval earlier this week (18 June) of three projects which will be owned and operated by the Cyprus Transmission System Operator (TSOC).

Will Cyprus install 400MWh battery energy storage system?

Image: Cyprus government / MECI. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country.

How is Cyprus developing pumped hydro energy storage capacity?

The country is also seeking to develop pumped hydro energy storage (PHES) capacity with technical assistance from the European Commission (EC) and is formulating a National Hydrogen Strategy. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects.

How many energy storage applications have been approved in Cyprus?

The Cyprus Energy Regulatory Authority (CERA) representatives reported establishing a regulatory framework for energy storage in 2019, followed by market rules approval in 2021. The Cyprus Transmission System Operator has received 13 storage applications totaling 224 megawatts capacity, with eight applications processed and five under review.

Cyprus lithium-ion energy storage project construction

Cyprus regulator approves TSO-owned battery storage

Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects.

Cyprus Launches First Major Battery Energy Storage System

Cyprus has commissioned its first major battery energy storage system (BESS). Discover the 50 MW project's partners, technical details, and impact on grid stability and ...

Cyprus switches on its first significant battery system, a ...

Cyprus has taken a step toward modernising its energy infrastructure with the commissioning of a 3.3 MWh battery energy storage system (BESS) as part of the Apollon PV ...

AUTARSYS COMMISSIONS GROUND BREAKING ENERGY STORAGE PROJECT IN CYPRUS

Cyprus Microgrid Energy Storage Project
In a sun-drenched Mediterranean win for clean energy, Cyprus deployed a 12MWh Island BESS Container Microgrid across three islands in 2025 ...

Successful bid price of lithium ion storage project in ...

Successful bid price of lithium ion storage project in Cyprus 2025 In 2025, you're looking at an average cost of about \$152 per kilowatt-hour (kWh) for lithium-ion battery packs, which ...

Cyprus approves 120MW battery storage system

The energy regulator has approved a significant battery storage system totalling 120MW across three locations to enhance grid stability and security, marking a crucial step for ...

Cyprus switches on its first significant battery ...

Cyprus has taken a step toward modernising its energy infrastructure

with the commissioning of a 3.3 MWh battery energy ...

Cyprus to deploy renewable energy storage systems starting ...

Cyprus will begin implementing renewable energy storage systems in 2026 at the earliest, Energy Minister George Papanastasiou announced during parliamentary discussions ...

The Nicosia Electric Energy Storage Project: Powering Cyprus...

Why This Project Matters for Renewable Energy Adoption Ever wondered how a Mediterranean island like Cyprus could become energy-independent? Enter the Nicosia Electric Energy ...

Cyprus Launches First Major Battery Energy ...

Cyprus has commissioned its first major battery energy storage system (BESS).

Discover the 50 MW project's partners, technical details, ...

Cyprus switches on first significant battery system

The Apollon PV Park has commissioned a 3.3 MWh battery energy storage system (BESS) and solar project, in a milestone for Cyprus.

Cyprus approves 120MW battery storage ...

The energy regulator has approved a significant battery storage system totalling 120MW across three locations to enhance grid ...
