Overview

Is Vodacom DRC ready for 5G?

Khalil Al Americani, CEO of Vodacom DRC, has announced the company is currently conducting 5G tests in the country. The trial is being carried out under the supervision of the DRC telecom regulatory authority, ARPTC. These tests aim to ensure the telecom operator's readiness for deploying ultra-high-speed internet in the DRC.

Is Vodacom ready to deploy ultra-high-speed internet in the DRC?

These tests aim to ensure the telecom operator's readiness for deploying ultra-high-speed internet in the DRC. Khalil Al Americani, however, recalled that Vodacom's primary operational goal is to continue expanding its 4G coverage across the country and 3G in specific areas.

What is mobile internet penetration in the DRC?

Mobile Internet penetration in the DRC is at 32.3% and Orange and Vodacom's announcement to construct new base stations in the country aligns with the country's new vision for the digital economy as included in the National Digital Plan Horizon 2025 adopted in 2019.

How can the DRC bridge the digital divide?

Deploying and operating networks, particularly in deep rural areas, continues to be a significant challenge in the DRC. To bridge the digital divide and expand network coverage in underserved communities, the companies have pledged to jointly construct up to 2,000 new solar-powered base stations over six years, using 2G and 4G technologies.
