Dual system solar lights

Overview

How does a dual sun solar system work?

DualSun's innovative hybrid solar panel recovers the wasted heat from the photovoltaic cells to produce hot water. In the process, the water circulation cools the PV cells, increasing efficiency by up to 15%. Thus, a DualSun installation can produce up to 4 times more energy than a standard photovoltaic installation. 1.

Why should you choose heisolar for a commercial solar-LED lighting system?

HeiSolar focuses on the high-quality commercial solar-led lighting system. We supplied thousands of solar street lighting systems for the UN project in past years. For commercial solar lighting, it must be with a high spec of LiFePO4 battery and a solar panel that can ensure light works at 100% brightness for 12 hours.

Do solar street lights work for the UN project?

We supplied thousands of solar street lighting systems for the UN project in past years. For commercial solar lighting, it must be with a high spec of LiFePO4 battery and a solar panel that can ensure light works at 100% brightness for 12 hours. Only with real high specification, the light can work well even in winter or on cloudy days.
