Dublin HJ Communications 5G base station address

Overview

Where is 5G available in Ireland?

Since 2019, several mobile operators have started rolling out 5G networks throughout Ireland. As of October 2020, there are 5G networks available in the major Irish cities and towns (Dublin, Cork, Galway, Wexford, Waterford).

Which GHz band is used for 5G in Ireland?

The 3.6 GHz band is similar to the frequencies currently being used for 4G while 700 MHz was previously used for analogue TV broadcasting. 26 GHz: This higher frequency band is not currently used for 5G in Ireland and is not expected to be deployed for several years.

Is 26 GHz a good frequency for 5G in Ireland?

26 GHz: This higher frequency band is not currently used for 5G in Ireland and is not expected to be deployed for several years. When it is deployed, it is expected to be used mostly in urban areas. The useful range at this frequency is short (a few hundred meters) so using it in rural areas is not likely to be practical.

What RF bands are used for 5G?

ComReg, in accordance with EU policy, has specified three RF bands for the use of 5G: 700 MHz/3.6 MHz: Use of these RF bands is not new. The 3.6 GHz band is similar to the frequencies currently being used for 4G while 700 MHz was previously used for analogue TV broadcasting. 26 GHz:
