Ebike battery pack

Overview

Do E-bikekit batteries come with a charger?

E-bikekit batteries are sold with the correct charger that matches the voltage and type for that battery. E-BikeKit.com: Electric Bike Batteries and Chargers for E-Bikes. Toll FREE: 866-882-3245.

Which battery pack should I use for my e-bike?

Depending on your bike, you can use Standard or RadMission 1 packs for your e-bike. The Standard pack is a 48V 14Ah 672Wh battery that works with Rad Power bikes dating back to 2018. It's not compatible with the RadMission 1 or RadRover 6 Plus ebikes. If you own a RadMission 1, the corresponding 48V 10.5Ah 504Wh battery pack is for you.

Which ebike battery should I buy?

Buy the Yose Power eBike Battery here. Power your electric bike with this sixthreezero ebike battery. Choose between 250- and 500-watt batteries depending on which one works best with your bike. The smaller 250-watt battery has a 36V and 10.4Ah rating, which is plenty for most rides around town.

Are ebike batteries safe?

Thanks to their impressive mileage, long service life and an intelligent Battery Management System (BMS), our eBike batteries are among the most modern and safest on the market. * The calculated data comprises estimates and approximations that may vary from the actual result.
