Energy storage enterprise merger and acquisition plan

Overview

How many energy storage deals were announced in Q3 2024?

Analysis of the key themes driving M&A activity reveals that energy storage accounted for 52 power deals announced in Q3 2024, worth a total value of \$7.8bn. The \$3.2bn minority acquisition of Vistra Vision by Vistra was the industry's largest disclosed deal.

How much money did energy storage companies make in 2022?

Corporate funding of energy storage companies exceeded US\$26 billion worldwide in 2022, a 55% jump from 2021's total US\$17 billion. Masdar has acquired battery storage developer Arlington Energy in a bid to expand its presence in UK and European renewables markets.

Which energy storage companies got the most VC funding in 2023?

UK-headquartered Zenobē Energy attracted the most venture capital (VC) funding of any company in the energy storage industry during 2023, as found by Mercom Capital. Oil and gas major Shell is putting its residential battery storage and virtual power plant (VPP) company sonnen up for sale, according to German outlet Handelsblatt.

Why is energy storage needed?

Energy storage is needed due to several factors, including the uptake of distributed solar, increased electrification of C&I facilities, rising utility rates, and the possibility of grid fluctuations due to weather, blackouts, or lack of infrastructure.
