What is a 3000W inverter?

This top-of-the-line inverter provides a clean and stable power output, ensuring optimal performance and long-lasting durability for your delicate devices. With a power capacity of 3000W, it can easily support a wide range of appliances, from small gadgets to large home appliances.

Are our inverters tested and installed in the UK & Ireland?

All our inverters are have been tested and installed in the UK and Ireland to ensure you are guaranteed a high quality product. We have a wide range of three phase inverters available for all types of situations.

Where can I use a power inverter?

Use in power generation systems such as electric utility companies or solar generating systems to convert DC power to AC power. Use within any larger electronic system where an engineering need exists for deriving an AC source from a DC source. All our Power Inverters are manufactured by Silverline and carry a 12 months warranty.
