## Overview

---

How did Angola's economy perform in Q3 2024?

Country Risk / Africa / Thu 19 Dec, 2024 Latest Development: According to data released by Angola's Instituto Nacional de Estatística on December 19, the economy grew by 5.5% y-o-y in Q3 2024, the fastest pace of expansion since Q1 2015. In seasonally adjusted q-o-q terms, output grew by 2.9%, the fastest since Q4 2016.

Will Angola's Current account surplus shrink in 2025?

We have revised up our 2024 forecast for Angola's current account surplus from 4.0% of GDP to 5.7%, due to an improved outlook for oil exports. However, we expect that the current account surplus will shrink to 0.2% of GDP in 2025 as oil prices and output decline, and as investment in the oil and gas sector drives up import demand.

How can Angola improve its oil and gas industry?

Angola's oil and gas sector, led by Sonangol, is actively seeking foreign investment through privatisation and new licensing, while tackling regulatory reforms to enhance competitiveness and modernise infrastructure. The hydrocarbon industry offers growth opportunities through strategic licensing and major projects. However, it faces.

What is the economic outlook for Angola in 2024?

We have revised up our 2024 real GDP growth forecast for Angola from 1.4% to 3.4%, following stronger-than-expected economic activity in Q1 2024. The outlook for oil output has improved, and this will support exports and increase room for fiscal stimulus in 2024. Oil & Gas / Angola / Tue 04 Jun, 2024 Key View
