

# Foreign telecommunications companies build base stations

## Overview

---

Why are telecom companies installing indoor 5G base stations?

To solve this, telecom companies are installing indoor 5G base stations, which are growing at a compound annual growth rate (CAGR) of over 30%. For businesses operating in offices, malls, or large commercial spaces, installing indoor 5G solutions can greatly enhance connectivity.

Who makes 5G base station equipment?

19. The top 5 telecom equipment providers for 5G base stations are Huawei, Ericsson, Nokia, ZTE, and Samsung When it comes to 5G base station equipment, five companies dominate the market: Huawei, Ericsson, Nokia, ZTE, and Samsung. These firms provide the hardware and software needed to power the world's 5G networks.

How many 5G base stations are there in China?

With 4.19 million 5G base stations already operational across China, the MIIT emphasized that “promoting 5G revolution and 6G innovation will be one of the priorities” for 2025, according to a report by Chinese newspaper China Daily. Chinese main operators are China Mobile, China Telecom and China Unicom.

How many base stations will 5G have in 2025?

The U.S. has ambitious plans for 5G expansion, aiming to have more than 300,000 active base stations by 2025. This goal is being driven by investment from private telecom providers and government initiatives like the Rural 5G Fund. For businesses in the U.S., this means increasing access to high-speed connectivity.
