Georgetown New Energy Storage Project

12V 10AH

Overview

Where is Georgetown solar located?

Georgetown Solar Inc. is developing a 230-megawatt (MWac) solar project located 11 kilometres south of Carseland, Alberta in Vulcan County. The Project encompasses 700 acres (400 soccer fields) and has been sited on privately owned cultivated farmland.

What is the Georgetown project?

The Georgetown Project began development in 2020 with land securement and the initiation of environmental assessments. We are committed to sharing information about the Project and working with the local community to ensure that we receive and understand stakeholder feedback and concerns.

How many soccer fields are in the Georgetown project?

The Project encompasses 700 acres (400 soccer fields) and has been sited on privately owned cultivated farmland. The Georgetown Project began development in 2020 with land securement and the initiation of environmental assessments.
