# **Georgia s special solar container battery companies**

## Overview

---

Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.

How many battery energy storage sites will Georgia Power have in 2026?

Georgia Power has applied for certification of four battery energy storage sites totaling 500 MW expected to come online in 2026. In a continued effort to limit its use of fossil fuels to mitigate peaks, Georgia Power Company is adding a whole mess of new BESS.

Should you go solar in Georgia?

For those looking for an efficient and cost-effective way to reduce their carbon footprints, going solar in Georgia is a great choice. From the moment you contact Alternative Energy Southeast, Inc., we will be a one-stop shop for your solar panel installation and energy storage needs from start to spectacular finish.

Where are battery energy storage projects popping up?

Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report. Most of the new batteries- 97% of them- ended up in ERCOT, WECC, and CAISO territories.
