Overview

Solar panels cost between ₹30,000 and ₹55,000 per kW for panels alone, and a complete solar power system costs between ₹70,000 to ₹1,00,000 per kW including installation, inverter, structure, wiring, and labor.How much does a solar panel installation cost?

The best way to evaluate the price of a solar panel installation is in dollars per watt ($/W). Similar to comparing dollars per square foot when shopping for a home, $/W helps standardize the cost of solar by showing the cost of solar on a per watt basis. Currently, the average price of a solar panel system install in the U.S. is $2.91/W.

How much does a 6 kW solar panel installation cost?

The average 6-kW residential solar panel installation is $17,852 before incentives. Learn about cost factors, financing options, tax breaks and more.

How much does it cost to clean solar panels?

Solar panels require very little upkeep. If you're able to clean the solar panels yourself, the only maintenance cost will be the water used to hose them down. If you hire a professional to clean your solar panels, it will cost around $100 to $350, on average.

How efficient are solar panels?

Most solar panels today have efficiencies ranging from 15% to 20%, but some manufacturers sell panels that exceed 20% efficiency ratings. The cost of a solar panel installation varies by location, property type, and, of course, the panels used for the installation.
