# **Government support for energy storage projects**

## Overview

---

Twenty-four projects based across the UK have been awarded the first round of funding, and will benefit from a share of over £6.7 million to develop new energy storage technologies that can utilise stored energy as heat, electricity or as a low-carbon energy carrier like hydrogen. Could a new energy storage scheme help the UK achieve energy independence?

The UK is a step closer to energy independence as the government launches a new scheme to help build energy storage infrastructure. This could see the first significant long duration electricity storage (LDES) facilities in nearly 4 decades, helping to create back up renewable power and bolster the UK's energy security.

What is the long duration energy storage Investment Support Scheme?

Long Duration Electricity Storage investment support scheme will boost investor confidence and unlock billions in funding for vital projects. The UK is a step closer to energy independence as the government launches a new scheme to help build energy storage infrastructure.

Do government subsidies drive energy storage development?

Strategic alignment and incentive mechanisms for energy storage development. The findings emphasize the crucial role of government subsidies in steering the energy storage sector toward a dynamic equilibrium, where active government support, operator engagement, and grid modernization converge effectively.

How do governments increase support for energy storage operators?

Consequently, governments increase support for energy storage operators, while encouraging active participation from all stakeholders to maximize power system value. (2). Taking the first derivation of Eq. (8) with respect to  $y$ , we obtain: (17)  $F'(y) = \frac{\partial F(y)}{\partial y} = (1 - 2y)(B_2 - B_1 C_1 + B_1 b + x S_2 + x z M c_2)$

## Government support for energy storage projects

---

### What funds are there for the energy storage ...

The energy storage industry has gained significant traction in recent years due to the global shift towards renewable energy sources ...

### China unveils measures to bolster new-type energy storage ...

According to an action plan jointly issued by the Ministry of Industry and Information Technology and seven other government organs, the new-type energy storage ...

### An energy storage roadmap study incorporating government ...

The strategic coordination of government subsidies with energy storage development and source-grid-load-storage (SGLS) integration represents a pivota...

## Poland finalizes 5 GWh energy storage ...

A total of PLN 4 billion (\$1 billion) will be distributed under the subsidy scheme by the end of 2025 in a bid to bring online more than 5 ...

## ENERGY STORAGE PROJECTS

The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the United States to facilitate the transition to a ...

## Call for applicants to Spain's EUR700m large ...

Friday saw the publication of a call for applications for energy storage projects hoping to receive support from a EUR700 million (\$794 ...

## Government funding for energy storage - Policies

GBP 6.7 million government funding was awarded to projects across the UK to

support the development of new energy storage technologies.

## UK: Cap and floor support confirmed for long-duration energy storage

The Department for Energy Security and Net Zero (DESNZ) has reconfirmed its intention to introduce financial support for long-duration energy storage (LDES) projects by ...

### Applications

## New scheme to attract investment in ...

Long Duration Electricity Storage investment support scheme will boost investor confidence and unlock billions in funding for vital projects.

## New Energy Storage Technologies Empower Energy ...

Depending on how energy is stored, storage technologies can be broadly

divided into the following three categories: thermal, electrical and hydrogen (ammonia). The electrical ...

### **European Commission approves new 700 million aid scheme to boost energy**

This aid is in addition to the energy storage support programmes activated by the government thanks to the NextGenerationEU funds of the Recovery, Transformation and ...

### **Ofgem super-charging clean power storage for first time in ...**

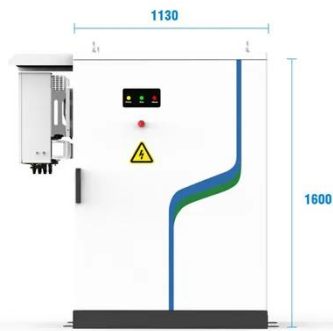

Ofgem has launched a new cap and floor investment support scheme, unlocking billions in funding to build major Long Duration Electricity Storage projects for the first time in ...

### **Portugal awards grants to 500 MW of energy storage projects**

A total of 43 projects were selected from 79 applications in Portugal's 2025

energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly ...

## ENERGY STORAGE PROJECTS

The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the ...

## UK Government Support for Green Energy

As the United Kingdom strides towards a low-carbon economy, government support for green energy plays a crucial role in ...

## European Commission approves new 700 ...

This aid is in addition to the energy storage support programmes activated

by the government thanks to the ...

### **ESS Technologies: Recent advances and ...**

The adoption of smart grid solutions, vehicle-to-grid integration and hybrid renewable storage projects will further enhance grid stability ...

### **New scheme to attract investment in renewable energy storage**

Long Duration Electricity Storage investment support scheme will boost investor confidence and unlock billions in funding for vital projects.

### **Energy storage system policies: Way forward and opportunities ...**

These countries have the most advanced storage technologies and are constantly

undertaking research, development and demonstration (RD& D) projects sponsored by the ...

---

## What funds are there for the energy storage industry?

The energy storage industry has gained significant traction in recent years due to the global shift towards renewable energy sources and the urgent need for reliable and ...

---

## How Do Government Policies and Incentives Impact the ...

Government policies and incentives are critical drivers for the economic viability of energy storage projects. Tax credits, subsidies, and grants can significantly reduce the upfront ...

---

## UK confirms cap-and-floor mechanism for ...

According to the government department, the new support scheme, in

the form of a cap-and-floor mechanism,  
will "remove barriers ...

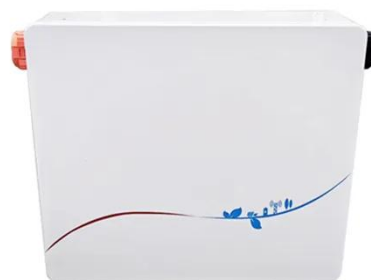

## China emerging as energy storage powerhouse

China's power storage capacity is on the cusp of growth, fueled by rapid advances in the renewable energy industry, innovative ...

## EU approves Spain's EUR700m energy storage ...

The European Commission on Monday approved a new aid scheme for the deployment of large-scale electricity storage in Spain. ...
