Greek energy storage inverter

Overview

Does Sungrow have a battery energy storage system?

ATHENS, Greece, Dec. 17, 2024 /PRNewswire/ -- Sungrow, the global leading PV inverter and energy storage system provider, is proud to announce the strategic partnership with KTISTOR Energy for the deployment of the innovative PowerTitan 2.0 liquid-cooled Battery Energy Storage System (BESS) across several key projects in Greece.

Will Greece install 900 MW of storage by 2030?

According to the Greek National Energy and Climate Plan (NECP), the nation aims to install 4.3 GW of storage by 2030. Thus far, 900 MW has been allocated via the Greek Regulatory Authority for Energy, Waste, and Water (RAAEY) tenders. Therefore, the remaining share would be delivered under the new plan but without any subsidy support.

How much power will Greece have by 2030?

The government now aims for 2.65 GW of battery projects on the transmission grid and a further 900 MW on the distribution grid. According to the Greek National Energy and Climate Plan (NECP), the nation aims to install 4.3 GW of storage by 2030.

Who is ktistor energy?

Mr. George Fakidis, Owner of KTISTOR Energy said: "We are thrilled to collaborate with Sungrow on the deployment of the groundbreaking PowerTitan 2.0 BESS technology for these pivotal projects in Greece. At KTISTOR Energy, we are committed to driving the transition to a more sustainable and resilient energy future."
