# High quality 1 2 kva inverter in Auckland

---

## INTEGRATED DESIGN

EASY TO TRANSPORT AND INSTALL,  
FLEXIBLE DEPLOYMENT

## Overview

---

Where are solar inverters made?

These days the vast majority of solar equipment is manufactured in China. Even European brands like SolarEdge, Fronius and SMA have major production facilities in China. If you are looking for something that is not manufactured in China you can look at the datasheet of the model of inverter you have been quoted to see where it was manufactured.

Are solar inverters reliable?

PV Evolution Labs (PVEL) has been independently testing solar panel reliability since 2014. The solar panel testing is considered internationally as an excellent indication of solar panel quality. In 2019, PVEL launched their inaugural ranking of solar inverters, which seeks to identify the top performer solar inverter brands.

How much does a solar inverter cost?

Depending on the Brand, the best solar inverters can cost anywhere from \$800 to \$2,600. Other inverter specifications – in order to keep this simple we have selected some of the most important aspects of an inverter to compare. A more holistic approach may lead to a slightly different ordering and outcome.

What is a pulse width modulation inverter?

The inverter system with pulse width modulation produces higher-quality, cleaner electricity, and sound absorbing materials keep the volume down. Combined with the easy to use single-sided control panel, it makes for a quiet and convenient power source. \*at ¼ rated load Economy Control on. 3 Year Warranty!
