# **How many 5G base station sites are there in Turkmenistan**

## Overview

---

Does Turkmenistan have a 5G network?

By June 2025, Arkadag became the first city in Turkmenistan with a pilot 5G network, implemented in cooperation with China's Huawei and using the national satellite for backhaul . This 5G pilot is an exception – nationwide, Turkmenistan's mobile data operates mostly on slower 3G/4G technologies.

When did 5G start in Turkmenistan?

In February 2025, a 4G+ (LTE-Advanced) network was launched in the model “smart city” of Arkadag . By June 2025, Arkadag became the first city in Turkmenistan with a pilot 5G network, implemented in cooperation with China's Huawei and using the national satellite for backhaul .

Will Turkmenistan launch 5G in 2025?

In June 2025, officials claimed to launch 5G in Arkadag as a pilot – making it the first 5G deployment in Turkmenistan . This 5G network reportedly uses the TürkmenÄlem-52°E satellite to provide backhaul/frequency, given the lack of a robust terrestrial fiber backbone in that area .

How many 5G base stations are there in Japan?

Japan had over 100,000 active 5G base stations by 2023 Japan's 5G network is expanding rapidly, with over 100,000 active base stations by 2023. The country has taken a strategic approach, focusing on major urban centers first and gradually expanding to rural areas.
