How many energy storage projects are there in Montenegro

System Layout

Overview

Is Montenegro launching its first battery energy storage tender?

Montenegro's Elektroprivreda Crne Gore (EPCG) has upped the ante for its first battery energy storage tender. In a pioneering move for state-owned utilities in the Balkans, Montenegro's largest power utility, EPCG, is planning to launch a large-scale, battery energy storage procurement exercise by the end of 2024.

What are the most important infrastructure projects in Montenegro?

The most valuable priority infrastructure projects in the energy sector of Montenegro are the Komarnica and Kruševa hydropower plants, the Trans-Balkan Electricity Corridor and the Ionian-Adriatic pipeline.

Will Kapino Polje install a 5 MW battery energy storage system?

The utility has also decided to install a 5 MWh battery energy storage system alongside its proposed Kapino Polje solar power plant, which would have 5 MW of installed capacity.

Will EPCG deliver 185 MWh of battery energy storage capacity?

In September, EPCG said it was looking to deliver 185 MWh of battery energy storage capacity across four locations. Its stated goal was to use the existing infrastructure for connection to the grid.
