How much is the government subsidy for installing solar panels

Overview

How much does a solar subsidy cost in India?

For example, if a solar system has a ₹1 lakh price tag and your subsidy is 40 per cent, you only pay ₹40,000 because the government hands you ₹60,000.
Who Is Eligible for Solar Subsidies in India?

Subsidies for solar panels in India primarily focus on rooftop solar installations for homes and rural areas.

Why should government offer subsidies on solar panels?

The government wants to make clean energy accessible to all and reduce dependency on fossil fuels. By offering subsidies on solar panels, the government hopes to encourage households and institutions to invest in solar energy solutions, especially in urban and rural areas where electricity costs are high. 1. PM Surya Ghar Muft Bijli Yojana.

Who can access government solar panel subsidies?

Homeowners, businesses, and farmers can access government solar panel subsidies. To qualify, you typically need to own the property, meet certain income or energy usage criteria, etc. Farmers can benefit from schemes like PM-KUSUM, PM Surya Ghar Muft Bijli Yojana, etc.

What is a solar subsidy?

A subsidy is when your government pays some of the cost for you. When you install solar panels on your roof, the government typically covers part of the cost, usually 30% to 60%, depending on your location and the size of your system. This will cut the cost and red tape involved in installing such systems for people who already have solar power.
