# **How much is the price of Warsaw energy storage new energy**

## Overview

---

How many GW of energy storage projects are there?

According to Energy-Storage.news' analysis, of that 12GW, some 2.5GW of obligations were given to energy storage projects, most likely to be battery energy storage systems (BESS).

How big is Columbus energy's energy storage project?

Specifically, the two projects are sized at 100.2 MW /200.4 MWh and 203.7 MW/814.7 MWh. Columbus Energy said that it has contracted energy storage projects with a connection capacity of 265 MW (capacity obligation of 160 MW at the derating of 61.3%) and a capacity of about 1 GWh.

Who won Poland's capacity market auction for 2029?

Image: Solar Media. BESS has won big in Poland's capacity market (CM) auction for 2029 delivery, with potentially 2.5GW of projects winning contracts including from Axpo, OX2, R.Power, FRV and PGE.

Are new generation power plants a 'new generation capacity market unit'?

New-build gas, coal or nuclear plants that will be built between now and 2029 could theoretically be amongst 'new generation capacity market unit' projects, but the average size of project wins for the category is in the low tens of megawatts, very small for legacy power plants.

## How much is the price of Warsaw energy storage new energy
