# **Huawei Middle East invests in energy storage projects**

## Overview

---

Will Huawei fusion solar power Red Sea city's off-grid energy needs?

Huawei's FusionSolar Smart String Energy Storage Solution will power the Red Sea City's off-grid, clean energy needs. The Red Sea Project, a key part of SaudiVision2030, is now the world's largest microgrid with 1.3GWh storage capacity.

Why is Huawei involved in the Red Sea project?

Huawei's involvement in the Red Sea Project underscores its commitment to sustainability, technological expertise, and collaboration. "The Red Sea Project provides an unparalleled opportunity to demonstrate this commitment and showcase our industry-leading innovation and technology," said Xing. "It's a blueprint for sustainable cities.

What is Saudi Red Sea New City Energy Storage Project?

Huawei Digital Energy Technology and Shandong Electric Power Construction (SEPCO III) has successfully signed the Saudi Red Sea New City energy storage project. The energy storage capacity of the project reaches 1300MWh, which is by far the world's largest energy storage as well as off-grid energy storage project.

What is Huawei fusionsolar smart string ESS?

Subscribe to The Week in Huawei. As a cornerstone of SaudiVision2030, the Red Sea Project now stands as the world's largest microgrid energy storage project, with a storage capacity of 1.3GWh. Utilizing Huawei FusionSolar Smart String ESS solution, this groundbreaking project is redefining renewable energy infrastructure.

## Huawei Middle East invests in energy storage projects

---

### **Huawei signs 1,300MWh solar-charged battery contract for ...**

During the event, Huawei Digital Power signed a "key contract" with engineering, procurement and construction (EPC) company SEPCO III for the project, which will also ...

### **Saudi: Huawei to power 'world's 1st fully clean-energy**

...

World's largest solar microgrid to power Saudi Arabia's Red Sea Project. Huawei's FusionSolar Smart String Energy Storage Solution will power the Red Sea City's off-grid, clean ...

### **Huawei unveils world's largest microgrid, featuring 1.3 GWh**

...

Huawei Digital Power has built a solar-storage microgrid project in Saudi Arabia's Red Sea New City. It said that the plant has been operating smoothly for a year, delivering ...

## Huawei, SEPCO III ink world's largest energy storage project

Huawei Digital Energy Technology and Shandong Electric Power Construction (SEPCO III) has successfully signed the Saudi Red Sea New City energy storage project. The ...

### ESS

### The Cutting-edge technology behind the world's largest

The world's first city fully powered by 100% renewable energy is emerging along the Red Sea coast in Saudi Arabia. As a cornerstone of Saudi Vision 2030, the Red Sea project now stands ...

## Huawei Strengthens Global Push in Grid-Forming Energy Storage ...

A Landmark Project in the Middle East One of Huawei's most prominent successes in this space is its grid-forming ESS deployment in the Middle East, specifically at the ...

## 1300 MWh! Huawei Wins Contract for the World's Largest Energy Storage

At the summit, Huawei Digital Power signed a key contract with SEPCOIII for the Red Sea Project with 400 MW PV plus 1300 MWh battery energy storage solution (BESS), ...

---

## **World's largest solar microgrid rises along Saudi's Red Sea**

Featuring a 400MW solar PV system coupled with a 1.3GWh energy storage system, the world's largest photovoltaic-energy storage microgrid is currently being built in ...
