Huawei Morocco solar Panels

Overview

What is Moroccan solar plan?

Moroccan Solar Plan Morocco has launched one of the world's largest and most ambitious solar energy plan with investment of USD 9billion. The Moroccan Solar Plan is regarded as a milestone on the country's path towards a secure and sustainable energy supply.

How much solar power will Morocco have by 2027?

The report's most likely 'medium' scenario forecasts that Morocco will reach 2.27 GW of total installed solar capacity by 2027, and 2.97 GW by 2028.

When will Morocco's solar project be completed?

The first plant, under the Moroccan Solar Plan, will be commissioned in 2014, and the entire project is expected to be complete in 2019. Once completed, the solar project is expected to provide almost one-fifth of Morocco's annual electricity generation.

What is the Moroccan Agency for Solar Energy (MASEN)?

In 2010, the Moroccan Agency for Solar Energy (MASEN), a public-private venture, was set up specifically to implement these projects. Its mandate is to implement the overall project and to coordinate and to supervise other activities related to this initiative.
