Huawei Outdoor Small Base Station

Overview

What is Huawei base station backhaul microwave?

Based on leading wireless, transmission, and datacom technologies, Huawei base station backhaul microwave solution provides fiber-level broadband wireless backhaul capabilities, ultra-low latency, fully modular architecture design, and co-site integration with wireless networks.

Does Huawei support GSM-R 5.0 & ELTE?

These multicarrier modules support both Huawei's GSM-R 5.0 and the company's enterprise LTE (eLTE). Use of this multi-radio-channel base station (and similar outdoor base station) maximizes versatility while minimizing site deployment costs. We are ready to help with your network equipment and services needs.

Is Huawei a leader in indoor mobile broadband?

Huawei has established itself as a leader in indoor mobile broadband. The technology has since garnered industry recognition, including winning four GLOMO awards since 2015. LampSite X is the latest iteration and the first to bring 5G Advanced capabilities indoors.

What is huawei's 'small cell & Big Value' Initiative?

[Photo courtesy of Huawei] To address this need, Huawei is advancing its "Small Cell, Big Value" initiative, with the LampSite product line as its cornerstone. LampSite base stations are tiny and can be discreetly integrated into indoor environments — tucked away in corners or mounted on walls in places like malls, airports and offices.

Huawei Outdoor Small Base Station

Huawei BTS 3900

The base station cabinet contains as many as six RF modules. These multicarrier modules support both Huawei's GSM-R 5.0 and the company's enterprise LTE (eLTE). Use of ...
