

BLINK SOLAR

Huawei double-sided solar panel customization

LPSB48V400H
48V or 51.2V

Overview

Why should you choose Huawei fusion solar?

It is backed by comprehensive service and support network that ensures reliable and cost-effective operation throughout the lifetime of the system.,Huawei FusionSolar provides new generation string inverters with smart management technology to create a fully digitalized Smart PV Solution.

What is the Huawei smartdesign configurator?

The Huawei SmartDesign configurator it allows you to design and size systems even with the combination of batteries.

What is a Huawei sun2000 ktl-l1 hybrid inverter?

The Huawei SUN2000 KTL-L1 single-phase hybrid inverter was created to maximize the energy self-consumption of your single-phase system and guarantees high yields and reliable performance. Three-phase string inverter for utility scale applications.

Can I use the Huawei configurator with a higher number of parallels?

When using the Huawei configurator, it must be taken in consideration that configurations with a higher number of parallels than the number of physical pairs of input connectors are prohibited by default. Although from an electrical point of view, the MPPT input would accept this type of configuration via an external parallel.
