# **Hytera Digital Trunk Communication System Base Station**

## Overview

---

What is a Hytera DMR trunking base station?

The base station for the trunked radio system Hytera DMR Trunking by Hytera ensures wireless communication in compliance with the DMR trunked radio standard. If the connection to the associated system controller node is lost, the base station continues to ensure radio operation in its radio cell.

What is Hytera ds-6250s DMR trunking cube base station?

Hytera DS-6250S DMR Trunking Cube Base Station is a next-generation compact base station based on DMR Tier III protocol. With a small form factor and high integration, it is cost-effective and powerful. Built on multi-carrier and SDR technologies, one base station is expandable to 8 carriers (UHF) or 4 carriers (VHF).

Where is Hytera DMR system located?

Corporation Limited. Address: Hytera Tower, Hi-Tech Industrial Park North, 9108# Beihuan Road, Nanshan District, Shenzhen, P.R.C <Https:// Post:518057> DMR System Product Portfolio Hytera DMR System Overview DMR Core Network MSO DS-6210 DMR Trunking Pro Base Station DS-6211 DMR Trunking Lite Base Station DS-6250.

Why should you choose Hytera trunking cube base station?

Quick, easy and flexible to deploy, the device can be mounted indoors or outdoors, ensuring swift positioning to provide business or mission critical communications. What's more, it boasts innovative eco-friendly design with low power consumption due to advanced technology like DPD. The Hytera Trunking Cube Base Station features fast deployment.
