Italian Milan cylindrical solar container lithium battery millivolt

Overview

Why is energy storage important in Italy?

As electricity prices continue to rise and Italy accelerates its shift toward renewable energy, reliable and efficient energy storage has become essential for both homeowners and businesses.

How will italtvolt support Italy's Green industrialisation ambitions?

Italtvolt intends to honour Italy's important industrial legacy by supporting the country's green industrialisation ambitions, and by delivering battery cells which will help drive decarbonisation across a variety of industries. Italtvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory.

What is Italy's largest battery cell factory?

Italtvolt's 45GWh battery plant will be the Italy's largest, independent, battery cell factory. The battery cell factory will focus on creating new opportunities for re-skilling and upskilling workers from Italy's automotive industry.

Where is italtvolt battery factory located?

Italtvolt has made a strategic decision to locate its battery cell factory in Italy, the country where Alessandro Volta invented the battery in 1800. Today, Italy holds significant opportunity for the modern battery industry, with its strategic location and highly skilled workforce.
