

BLINK SOLAR

Jakarta solar glass sun room manufacturer

Overview

What is the most famous glass building in Jakarta?

Perhaps the most famous is Wisma 46, with its gracious glass exterior, which was considered ahead of its time when it was built in 1996. Designers and architects in Jakarta are making note of the advances in smart glass technology.

Why is PV glass made in Indonesia?

As an offtaker of our PV-Glass-Grade Silica, the factory ensure a stable offtake and a secure supply chain for the silica refinery. Coupled with other raw materials like soda ash, alumina, limestone, and other coming from local sources, the resulting PV Glass contains almost 100% local content – eligible to earn the Made in Indonesia title.

Who makes solar Photovoltaic Glass?

As a leading solar photovoltaic glass manufacturer, it is a holding business for investments that produces and sells photovoltaic glass goods. IRICO Group is widely recognized as one of the world's top solar photovoltaic glass manufacturers. It was founded in 1984 and is currently headquartered in Beijing, China.

Is smart glass a good idea for Jakarta?

Designers and architects in Jakarta are making note of the advances in smart glass technology. The glass that turns opaque at the push of a button provides privacy, offers unobstructed views, and saves on energy bills – a great solution for this ever-expanding city.
