# **Kuala Lumpur solar Energy Storage Project**

## Overview

---

Is Malaysia ready for energy storage?

(Photo: iStock) Malaysia is rapidly expanding solar and other intermittent renewable generation, creating strong momentum for energy storage. The country's first four large-scale grid-connected storage projects have attracted significant interest, with more than 20 companies submitting over 30 proposals.

What are Malaysia's upcoming large-scale solar projects?

Get breaking news fast — follow us on WhatsApp and Telegram. KUALA LUMPUR: Malaysia's upcoming large-scale solar (LSS) projects, including LSS5, LSS5+, and LSS6, are projected to unlock contracts valued between RM15 billion and RM18 billion over the next 24 months, driving robust activity across the solar energy sector.

Who is interested in a solar project in Malaysia?

Another solar player, Pekat Group Bhd (KL: PEKAT), is also involved in the bid, while Seal Incorporated Bhd (KL: SEAL) whose associate developed Malaysia's first grid-scale battery storage project in Sabah is also said to be looking at EPCC opportunities in the space.

Who has bid on Malaysia's first large-scale grid-connected energy storage project?

The first large-scale grid-connected energy storage project in Malaysia has attracted bids from over 20 companies, including Tenaga Nasional Berhad. (Image: TNB)
