

**BLINK SOLAR**

# **Long-term stable supply of solar glass**

## Overview

---

How big is the Solar Photovoltaic Glass market?

Image © Mordor Intelligence. Reuse requires attribution under CC BY 4.0. The solar photovoltaic glass market size reached 32.10 million tons in 2025 and is forecast to reach 74.75 million tons by 2030, advancing at an 18.42% CAGR between 2025 and 2030.

How will the Solar Photovoltaic Glass market continue to grow?

Competitive strategies range from Chinese producers expanding commodity capacity to Western incumbents investing in circularity, low-carbon furnaces, and specialty coatings. These shifts together position the solar photovoltaic glass market for resilient growth throughout the decade.

How can manufacturers defend profitability in the Solar Photovoltaic Glass market?

Manufacturers now compete on scale, logistics efficiency, and coating innovation to defend profitability in the solar photovoltaic glass market. Cumulative solar capacity reached 1.6 TWdc in 2023, up 89% on 2022, while building-integrated photovoltaics (BIPV) gained momentum.

Why is NSG launching a new solar glass production line?

January 2025: NSG Group has commenced operations of a new solar glass production line in the United States, strengthening its position in the solar photovoltaic glass market. This development is expected to enhance the supply of high-quality solar glass, supporting the growing demand in the renewable energy sector.

## Long-term stable supply of solar glass

---

### JinkoSolar Signs 3-Yr Solar Glass Supply Deal ...

The company said that the agreement with Flat Glass will ensure a long-term, stable supply of solar glass and is in line with it's ...

### JinkoSolar secures 3-year supply of solar glass from the Flat Glass

The agreement with Flat Glass will ensure a long-term, stable supply of solar glass and is in line with JinkoSolar's strategic and operational plans .
