

**BLINK SOLAR**

# **Manila to sell solar power generation system**

## Overview

---

Is there a solar project in the Philippines?

Given the limited scale of solar in the Philippines, it is perhaps surprising that there are plans to develop one of the world's biggest combined PV and energy storage projects in the country.

What is solar energy in the Philippines?

Solar energy is heat and radiant light from the Sun that can be harnessed with technologies such as solar power (used to generate electricity) and solar thermal energy (used for applications such as water heating). The Philippines Solar Energy Market is segmented by technology.

What is the future of solar energy in the Philippines?

The future of solar energy in the Philippines looks promising, with an expected 15% annual growth in the market from 2022 to 2027. Investments and confidence in the nation's long-term goals are driving this positive trajectory.

Who owns 100% of Solar Philippines?

The transaction with Solar Philippines New Energy Corporation, which currently owns 100% of the project, was announced at a signing ceremony in Pasig City, Philippines, attended by Torbjorn Caesar, Chairman and Senior Partner at Actis, Manuel V. Pangilinan, Chairman of Meralco, and Emmanuel V. Rubio, CEO of Meralco PowerGen (MGen).
