# **Many energy storage financing projects**

## Overview

---

How many energy storage projects were approved in 2021?

In 2021, there were 136 approved energy storage projects, comprising 131 electrochemical and 5 pumped hydro storage projects.

Are energy storage investors moving to state-owned enterprises (SOEs)?

This implies a major shift in energy storage investors to state-owned enterprises (SOEs) from power grid companies such as China Energy, Huaneng, Huadian, and State Power Investment Corporation (SPIC) .

Can blended concessional finance close energy storage financing gaps in China?

Drawing on international best practices, blended concessional finance, supported by development partners, can play a significant role in closing energy storage financing gaps in China and in countries of the Belt and Road Initiative (BRI).

How can energy storage technologies address China's flexibility challenge in the power grid?

The large-scale development of energy storage technologies will address China's flexibility challenge in the power grid, enabling the high penetration of renewable sources. This article intends to fill the existing research gap in energy storage technologies through the lens of policy and finance.
