Medical UPS for sale in Ljubljana

Overview

What is a medical grade UPS system?

This UPS (uninterruptible power supply) Systems provide full DIN EN 60601-1 compliance while providing reliable battery backup and surge/line noise protection for sensitive medical equipment such as respirators and EKG machines, as well as computers and imaging equipment. Medical-Grade UPS Systems.

What is ups for medical centers & hospitals?

UPS for medical centers and hospitals deliver backup power in emergencies and ensure power conditioning for critical equipment. [Learn more.](#)

What is a medical ups ul 60601-1?

Each medical UPS is UL 60601-1 tested to provide standby power in patient-care settings and comes with hospital-grade plugs and hospital-grade outlets, and a built-in isolation transformer. CyberPower manufactures high-quality uninterruptible power supply and UPS products for hospitals, medical clinics, and healthcare facilities.

Why should you use ups for medical equipment?

An interruption in power to sensitive equipment during its operation could damage the machine or require the entire procedure to be repeated, delaying critical care. UPS for medical equipment ensure essential diagnostic tools are readily available – without interruption – while conditioning the power for sensitive equipment.
