Metal clad switchgear factory in Saudi-Arabia

Overview

Who is electrical switchgear?

We are one of the leading manufacturers of “ELECTRICAL SWITCHGEARS” and associated equipment in SAUDI ARABIA. Established in 1975 and within span of 48 years, we have expanded our area and scope of activities promoting development of Electrical Technology in the Kingdom, importance of which cannot be emphasized.

What are the requirements for indoor Metalclad switchgear?

5.3.6 The indoor metalclad switchgear shall be enclosed in a ventilated general purpose enclosure. The degree of protection of the enclosure shall be IP40 as per IEC 60529. 5.3.7 Each switchgear panel shall be furnished with hinged front door(s) and a removable, bolted rear panel.

How should a switchgear Assembly be wired?

All wiring internal to the switchgear assembly shall be laid in accessible wiring troughs throughout the entire length of the switchgear assembly. Internal wiring between the breaker and the LV compartment shall be bundled and neatly formed. There shall be no wiring run as single cores through grommets.
