# **Micro circuit breaker factory in Costa-Rica**

## Overview

---

Why is Costa Rica a good country for electronics manufacturing?

Since Costa Rica hosts the region's only Intel semiconductor assembly and test plant, electronics manufacturers in Costa Rica may enjoy a significant economic advantage. Finally, Costa Rica is geographically located between North and South America, and has ports on the Atlantic and Pacific oceans.

Why does micro invest in Costa Rica?

Aside from Costa Rica's safety and predictable government stability, Micro continues to invest in Costa Rica for the talent and work ethics of its people, the proximity to the US, and for ease of global supply. We excel in environments where failure is not an option and our record speaks for itself.

What is Costa Rica famous for?

Costa Rica is the fifth largest Central American country with a population of almost five million. Traditionally, the country's major exports have been agriculture goods, such as coffee, sugar cane, pineapples and bananas; however, since the 1990s, manufacturing has made major in-roads into their economy.

What is Smiths Interconnect Costa Rica known for?

The Smiths Interconnect Costa Rica plant is known for a producing a wide range of electronic components and is working towards the implementation of a semiconductor manufacturing and assembly capability. Current products include the following. Figure 3. Smiths Interconnect operator verifying the results of a screen print.
