Overview

What is a solar string combiner box?

Factory-assembled combiner box solutions for all residential, commercial and utility-scale applications with single string, or up to 32 strings in 1000V and 1500VDC. Solar string combiners are built with Gemini thermoplastic outdoor enclosures due to its great mechanical strength.

What is a combiner box?

Its main purpose is to combine multiple DC inputs from the panels in the system into a single DC output. This output is then connected to a charge controller or inverter, depending on the type of system. Purpose of Integration: Having integrated all the wires in one place, combiner boxes reduce the number of connections to the fuse terminals.
