

BLINK SOLAR

**Nepal solar curtain wall
manufacturer**

Overview

Who is a leading curtain manufacturer in Kerala?

Window World is one of the leading curtain manufacturers in Kerala. All our curtains are made from good quality materials and are well-designed by our team. We supply our curtains to all over Kerala for bulk orders, and our manufacturing unit in Ernakulam ensures a lot of design options and tested quality.

What is a photovoltaic curtain wall?

They enhance thermal comfort and help prevent the greenhouse effect. A standard curtain wall offers no return on investment. In contrast, a photovoltaic curtain wall not only insulates the building but also generates power for over 30 years. This reduces monthly electricity bills and ultimately pays for itself over time.

What are aluminum curtain walls?

The aluminum systems are not only easy to transport but also straightforward to manufacture. Curtain walls —also known as glass façades and exterior glazing systems —convert previously unused spaces into energy assets, enhancing both aesthetics and functionality.

What is a curtain wall?

Curtain walls are generally heavier sections used for front façades & skylights, which allow for only glazing and aluminum sections to be seen. Whether it is for new constructions or refurbishment, our team will fabricate according to your drawings or by the site measurements of your original door, window or facade.

Nepal solar curtain wall manufacturer

Architectural Aluminium & Glass Solutions

We are specialists in the design, manufacture and installation of aluminium curtain walling, windows and doors. We ensure highest quality delivery with guarantee!

Curtain Walls
