New Delhi Solar Container Fast Charging

 **TAX FREE**    

ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The image shows a white Energy Storage System (ESS) container with a black top and bottom. It features two vertical green stripes and a central blue and white octagonal logo. The letters 'ESS' are printed in green on the right side. At the bottom, there are two yellow warning triangles with exclamation marks.

Overview

Will Delhi's first solar powered EV charging carport lead to a greener future?

Raman Bhatia, Founder and Managing director, Servotech Power Systems Ltd. said "We are thrilled to inaugurate Delhi's first solar powered EV charging carport along with NSEFI, marking a significant step towards sustainable urban mobility for a greener future.

Who created India's first solar-powered EV charging carport?

The National Solar Energy Federation of India (NSEFI), the country's premier solar organisation, and the German Bundesverband Solarwirtschaft e.V. (BSW) collaborated to establish Delhi's first grid-connected solar-powered EV charging carport.

What is a solar-powered EV charging carport?

The installation of the Solar-Powered EV Charging Carport, a pilot project at the Hauz Khas Village parking station, is an important turning point in the infrastructure for electric vehicles and sustainable energy. The solar panels and EV chargers that were utilised to set up the carport were created, constructed, and installed by Servotech.

Where is India's first EV charging station located?

Servotech Power Systems, an Indian EV charging solutions provider, has installed a grid-connected solar-powered EV charging carport in Delhi. It is the first such EV charging station in the national capital. It is located in Hauz Khas Village, in the southern part of the city.
