New Energy Storage Projects in Ireland

LFP 12V 200Ah

Overview

Which energy storage companies are working in Ireland?

Statkraft delivered the first energy storage project in Ireland with Fluence in 2020, at its Kilathmoy wind farm and the company has continued to have a strong presence in the Irish energy storage field since then. The company is also lining up another milestone project soon, with the country's first four-hour duration energy storage system.

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

What is energy storage Ireland 2025?

At Energy Storage Ireland 2025, the message was clear: energy storage is central to a stable, low-carbon grid, and while short-duration battery systems (BESS) are available, long-duration storage (LDES) supply is in its infancy, however ESBN has a structure to enable LDES rollout in Ireland. The technology is advancing fast.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

New Energy Storage Projects in Ireland

New batteries based on rusting will help make Ireland's energy ...

Iron-air batteries are a new form of long-duration energy storage (LDES) that is needed to help Ireland reduce its dependence on fossil gas and keep the lights on during the ...

Ireland Powers Up with Largest Battery Energy Storage Facility

Ireland takes a leap towards clean energy with its largest battery storage facility. Explore the benefits of this 150 MWh project.

Lisdrumdoagh Energy Storage Facility , RWE in Ireland

Fully operational since June 2022: With a capacity of 60 megawatts and 34 megawatt hours (MWh), the Lisdrumdoagh Energy Storage Facility can feed electricity into the grid at very ...

Electricity Storage Policy Framework

The Electricity Storage Policy Framework presents 10 government actions to support the role of electricity storage systems in Ireland's energy transition, identifying the key ...

✓ IP65/IP55 OUTDOOR CABINET

✓ OUTDOOR MODULE CABINET

✓ OUTDOOR 5G BASE STATION CABINET

✓ WATERPROOF

Energy Storage Practice in Ireland , EnergyPro

Our recent attendance at Energy Storage Ireland 2025 showcased a number of insights into the state of energy storage processes in Ireland & where to go next.

Ireland's Battery Storage Pipeline Nears 10GW as Sector ...

Ireland's energy storage capacity could increase almost eightfold by 2035, driven by a growing pipeline of battery projects and calls for stronger policy support, according to a ...

Ireland utility-scale energy storage to exceed 1.5GWh in 2025

The energy storage market in Ireland continues to show strong growth potential, with new additions providing an uptick in activity.

Ireland in line for 1 GWh iron-air battery storage project

Ireland could host Europe's first large-scale, iron-air project southwest of Buncrana town in Donegal County. The 10 MW facility proposed by FuturEnergy Ireland will be capable ...
