

Number of 5G base stations of Palestinian telecommunications operators

Overview

How big is the 5G base station market?

Macro cells represented USD 22.9 billion and 61.3% of the 2024 5G base station market share, providing umbrella coverage and mobility anchor services. Yet small cells are forecast to expand at a 29.4% CAGR, pushing their slice of the 5G base station market size toward USD 50 billion by 2030.

How many 5G base stations are there in China?

In data collected between July 2022 and June 2024, China was reported to have had around 3.5 million 5G base stations installed across the country, with Chinese mobile operators investing heavily in 5G infrastructure. By comparison, the European Union had around 460,000 thousand base stations, while the United States had approximately 175,000.

Which companies are partnering with 5G in 2025?

January 2025: Nokia secured a USD 2.3 billion contract with Bharti Airtel for 5G radio access across 17 Indian states. December 2024: Ericsson announced a partnership with Microsoft to pair Azure Edge Zones with 5G base stations for ultra-low-latency industrial use cases.
