## Overview

---

### What is Ottawa Bess 2?

Ottawa BESS 2 is a proposed up to 75 Mega-Watt (“MW”) lithium-ion Battery Energy Storage System (“BESS”) that will be located at 2393 8th Line Road, Ottawa, ON, K0A 2P0. The Project will be submitted to the Independent Electricity System Operator’s (“IESO”) Request for Proposals under the Long-Term 1 Procurement.

### What is Eqube Bess?

EQUBE BESS is a modular, flexible, and scalable battery energy storage system that prioritizes safety and reliability. Delivered as fully tested, factory-built equipment in outdoor rated enclosures, it can be AC-Coupled or DC-Coupled and operates seamlessly in both on-grid and off-grid applications.

### Why do we need a Bess system?

By doing so, it ensures that energy resources are utilized more efficiently, minimizing waste and improving the overall efficiency of energy production and distribution. The BESS also offers significant operational flexibility, allowing it to adapt to varying energy demands and supply conditions quickly and effectively.

### Are Troes Bess systems compliant?

Equipped with a proprietary three-layer control system, All TROES BESS systems are fully compliant with Canadian and provincial electrical codes, environmental standards, and safety regulations. Our fully integrated systems combine hardware, software, and intelligent controls —offering a true turnkey solution for mid-sized microgrids.
