Ouagadougou solar panel processing factory

Overview

Where are solar panels made in West Africa?

The factory is said to be the first of its kind in West Africa. From pv magazine France. Solar module maker Faso Energy has begun manufacturing at its 30 MW solar module fab in Ouagadougou, Burkina Faso. The plant, in the industrial zone of the Kossodo district of the Burkinabe capital, is expected to deliver 60-100 PV panels per day.

How many solar panels will Burkinabe produce a day?

The plant, in the industrial zone of the Kossodo district of the Burkinabe capital, is expected to deliver 60-100 PV panels per day. Modules with power outputs ranging from 260 W to more than 330 W are being made at the XOF3.25 billion (\$5.78 million) factory.

Does Burkina Faso have electricity?

Faso Energy secured almost XOF1 billion worth of tax exemptions during construction of the facility, which features a semi-automated PV production line supplied by Spanish equipment provider Mondragon. It is estimated less than 20% of the population of fossil fuel-dependent Burkina Faso has access to electricity.
