Outdoor base station wiring rack

Overview

Can a base station be built inside OUTD cabinets?

A whole base station can be built inside our OutD cabinets. Our OutD series includes multiple wall structure alternatives for protecting telecom equipment in the best possible way, from a single-layer wall construction with light and cost-effective design to a multilayer construction designed for more demanding conditions.

What is a weatherproof rack cabinet?

Free Shipping available now. For outdoor server and network applications, the weatherproof rack cabinet is designed to protect equipment from water, environmental elements, and debris.

What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

How does the inside frame rack work?

The inside frame rack accepts cage nut style fasteners that works with standard EIA-19-inch components and includes 2 shelves for easy accessory storage. To help manage heat and airflow, 2 fans with thermostat are mounted at the top of the cabinet to keep equipment from overheating.
