# **Outdoor solar light 1000w**

## Overview

---

1000W solar flood lights are powerful, energy-efficient lighting solutions designed for outdoor security, commercial illumination, and large-area visibility. These advanced lighting systems harness solar energy.

How high can a solar street light be installed?

The illumination area can cover up to 1800 sq.ft. We recommend installing solar street lights at a height of 13-20 feet above the ground to effectively light up the street and offer area lighting for walking at night. [INTELLIGENT CONTROL ] — The solar lamp is equipped with a remote control providing convenient use in long-distance.

How does a solar outdoor light work?

No extra hard-wire is needed, which saves costs on installation and maintenance, 0 electricity bills as well. [Sensitive radar sensing and remote control] The solar outdoor light is equipped with a motion-sensing function and can be controlled by remote control at the same time.

How far can a solar street light work?

The solar street light waterproof has a motion sensing distance of approximately 25 feet, and the remote control can operate from a distance of approximately 25ft. Amazon.com Return Policy: Amazon.com Voluntary 30-Day Return Guarantee: You can return many items you have purchased within 30 days following delivery of the item to you.

What is led solar street light?
