Overview

Who is png solar supply?

This project highlights the company's ability to bring sustainable energy to even the most isolated regions of the country. PNG Solar Supply is proudly Papua New Guinean-owned and operated and has supplied 23 projects across PNG, providing much-needed employment opportunities for local communities.

Can solar replace fossil fuels in Papua New Guinea?

The potential for solar to replace fossil fuels in Papua New Guinea is high, according to Lighting Papua New Guinea, which has played a key, pivotal role in multilateral efforts to promote and foster solar and renewable energy investments and use in Papua New Guinea.

Does Papua New Guinea have electricity?

In Papua New Guinea where rugged terrain, extreme weather and political disputes contribute to low levels of electrification, only 13% of the population have reliable access to electricity, and most of those live in the urban centres connected to the grid.

What makes png solar supply unique?

This unique business model allows the company to contribute both to energy sustainability and educational growth in PNG. One of PNG Solar Supply's flagship projects is the Kanabea Mini-Grid, located deep in the hinterlands of Gulf Province.
