Overview

Does Q energy France support large energy storage systems on industrial sites?

“This power plant is fully in line with a development model that we strongly support: the installation of large energy storage systems on industrial sites,” said Corentin Sivy, Development Director of Q ENERGY France.

What are battery energy storage systems?

Thomas Kohler, Head of Storage France Battery storage (battery energy storage systems or "BESSs") are an essential component of the energy system. They ideally complement renewable generation which is by nature intermittent, presenting a major challenge for system operators. This technology makes it possible to:

What is energy storage?

Energy storage involves preserving a quantity of energy produced for later use. Operating a storage plant optimises the feed-in of energy into the grid and helps to balance it.
