# **Philippine Government Procurement of 20-foot Smart Photovoltaic Energy Storage Container**

## Overview

---

Does the Philippines have a green energy auction 4?

Source: Philippines Department of Energy (DOE) – Green Energy Auction 4 Announcement, Ma. The Philippines' DOE launches Green Energy Auction 4, adding 9,378 MW of renewable capacity by 2029. For the first time, it integrates solar with BESS to enhance grid reliability and support the 35% renewable energy goal by 2030.

How many MW of solar power will the Philippines offer?

The Philippines' government will tender for 9,378MW of renewables, comprising distributed and large-scale solar PV, including ground-mount, rooftop and floating PV, alongside onshore wind capacity.

Who owns the Surallah solar plant in the Philippines?

The Surallah solar plant in the Philippines, which is owned by ib vogt. Image: ib vogt. The Philippines Department of Energy (DOE) has started an auction scheme for renewable power paired with storage which aims to tender over 9GW of capacity.

Should solar plants be paired with battery energy storage systems?

Pairing solar plants with battery energy storage systems (BESS) will be the main strategic focus for the country's upcoming renewable energy auction. Each project must have a minimum storage duration of four hours to ensure sufficient grid support and energy reliability.
