## Overview

---

How much does a solar panel cost in Philippines?

The most popular brands include Longi, Jinko, Trina Solar and Risen. Their 300-watt panels usually cost Php 7,068 to Php 11,308. In addition to Asian panels, there are, of course, more expensive but more efficient panels available from renowned companies such as LG, Panasonic or SunPower.

Where to buy cheap solar panels in the Philippines?

The cheapest offers of solar panels in the Philippines can usually be found in online stores or solar equipment distributors. There we can find opportunities for panels from lesser-known brands at promotional prices. However, when buying a very cheap panel, you should be careful about unfair offers and contraband.

Are solar panels a viable choice in the Philippines?

The Philippines is a country that receives plenty of sunshine all year round. This makes using solar panels a viable and popular choice here in this nation. If you're looking to buy solar panels, this guide provides insights into solar panel prices in the Philippines & Manila.
