Phnom Penh Inverter BESS Price Inquiry

Overview

How much does a Bess system cost?

As of most recent estimates, the cost of a BESS by MW is between \$200,000 and \$450,000, varying by location, system size, and market conditions. This translates to around \$200 - \$450 per kWh, though in some markets, prices have dropped as low as \$150 per kWh. Key Factors Influencing BESS Prices.

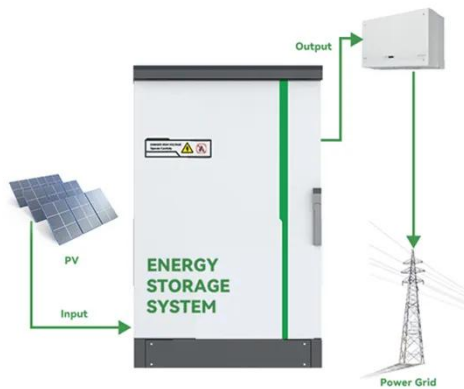

How many mw / 4100 MWh of Bess capacity will be deployed?

The project will aim at deploying at least 2100 MW / 4100 MWh of BESS capacity with grid-forming inverter in various locations across Cambodia mostly for ancillary services, peak load shifting and grid congestion relief.

Does Cambodia have a power supply?

None currently available. Cambodia has substantially increased power generation capacity while reducing imports from neighboring countries. Domestic power generation has rapidly increased from 8.68 TWh in 2020 to 17.85 TWh in 2024, while imports decreased from 3.06 TWh in 2020 to 1.57 TWh in 2024.
