# **Port Moresby Energy Group Energy Storage Project**

## Overview

---

What is Port Moresby power station?

The Port Moresby Power Station will provide reliable power to Port Moresby and is the lowest cost dedicated grid connected thermal generation in the country. Replacing heavy fuel oil and diesel, the gas-fired power plant also brings a material reduction in the environmental impact from power generation in PNG.

How much does a fuel storage facility cost in Papua New Guinea?

PORT MORESBY – In a significant boost to Papua New Guinea’s (PNG) infrastructure, the United States has awarded a contract valued at approximately US\$400 million (around K1.6 billion) for the development of a major fuel storage facility in Port Moresby.

Why is png building a fuel storage facility?

“This project reflects the strength of our bilateral relationship and is the result of ongoing dialogue and collaboration with PNG,” Yastishock said. The facility is designed to hold more than 1.6 million barrels—or about 264 million litres—of fuel, significantly boosting PNG’s energy security.

Why did the US invest in a fuel storage facility in PNG?

US Ambassador Ann Marie Yastishock announced that the investment was initiated in response to a formal request from the PNG Government. She highlighted that the facility would not only meet the country's fuel storage demands but also enhance the diversity of fuel options available in the market.

## Port Moresby Energy Group Energy Storage Project
