Pretoria 80W Solar Street Light

Overview

Do solar street lights work in South Africa?

Ideal for improving safety and visibility, solar street lights South Africa homeowners and municipalities rely on operate automatically, switching on at dusk and off at dawn for hassle-free operation. Pair them with solar wall lights to enhance perimeter security, or combine with LED floodlights to highlight larger areas or entrances.

What wattage are solar street lights?

Choose from various wattages, including 30W, 80W, 120W, and 150W, to suit your specific requirements. Our high-quality solar street lights are built to withstand outdoor elements, ensuring durability and long-lasting performance. Embrace the power of solar energy and light up the night with our Solar Street Lights collection.

What are solar street lights?

Embrace the power of solar energy and light up the night with our Solar Street Lights collection. Illuminate your path to sustainability with our Solar Street Lights collection. Designed to brighten up your surroundings efficiently, these lights offer an eco-friendly and cost-effective lighting solution.

How do solar street lights work?

Each solar street light has a built-in day/night sensor, allowing the light to switch on automatically at dusk and to turn off at dawn (electricity is saved this way and you're saved the trouble of having to switch on and switch off the lights!).
