Price of 20kW collapsible containers used in US airports

Overview

What are collapsible shipping containers?

While shipping containers are typically thought of as containers to be used for shipping, collapsible shipping containers bring a whole new angle. Collapsible shipping containers are very similar to regular shipping containers. The difference in the collapsible ones is that they are just that, collapsible.

How much does a 40 ft shipping container cost?

Used 40ft shipping containers cost on average \$2,000 to \$4,500 for standard and \$2,500 to \$5,000 for a 40 ft high cube, while new 40ft containers cost \$3,500 to \$6,500 and \$4,000 to \$7,000, respectively. Use our public search tool to compare prices and find the perfect shipping container for your needs.

What size is a collapsible bulk container?

Our collapsible bulk containers are available in various sizes and offer capacity ranges for medium-duty, heavy-duty, or extra-heavy-duty applications. 32" x 30" bulk containers are ideal for handling, storing, and moving various dense small-to-medium-sized parts.

Are new shipping containers more expensive than used?

New containers are typically more expensive as they are in perfect condition and ready for long-term use. Used containers are less costly but have some wear and tear. Shipping container sizes and prices are directly linked to each other. The price also depends on how well the container has been maintained over time.
